Nebraska Land Judging
Changes for 2024

Rules

Clipboards are allowed to accommodate ScanTron cards. The rules will read: Clipboard – Clean clipboards that contain no writing, markings, or measuring marks, preferably made of clear plastic. By 2026, all schools should have CLEAR CLIPBOARDS for the Land Judging contests that contain no writing, markings, or measuring marks. Please budget and order accordingly to transition to CLEAR CLIPBOARDS.

Score Cards

In 2023, Nebraska Land Judging officially switched to a ScanTron card. Contestants will receive a reference card, ScanTron card and capability chart. The ScanTron card has all four pits on the same card and students will keep the card until they turn it in at the very last pit.

In 2023, we had many issues with students filling out the ScanTron card incorrectly. Please take time to practice with students on the ScanTron card especially with filling out the bubbles legibly. You **MUST USE A PENCIL** on the ScanTron card.
