### \* Nebraska Envirothon Reference Guide \*

“What do my students need to know to compete in the Envirothon?”, is the most asked question of teachers across Nebraska. To try and provide you with some answers, we have developed a **Reference Guide** for the Nebraska Envirothon Program.

The reference guide contains a listing of objectives students should know or be familiar with, agency

contacts, websites, references, and the rules and guidelines for the Envirothon.

The Nebraska Envirothon Reference Guide is now available. Please contact your Regional Coordinator or the NARD office (toll free 1-877-777-6273) to receive a copy. Guide can also be accessed and downloaded from the NARD website at: <http://www.nrdnet.org>
